## OF GENERAL INTEREST

Named after Col. John Goffe, early settler, soldier and civic leader.

Date Incorporated ... June 17, 1761.

Location ..... Hillsborough County, 9 miles west of the City of Manchester on Route N.H. 114, north of Bedford on Route N.H. 114, east of New Boston on Route 13 and south of Weare on Route N.H. 114.

Population - 1960 ... 7,230      1974 ... 10,100

Elevation of	
Town Hall	306 feet above sea level
Bartlett School	240 feet above sea level
Top Mt. Uncanoonuc	
(so.)	1321 feet above sea level
Grasmere Village	269 feet above sea level
Glen Lake	271 feet above sea level
Kelley Falls	160 feet above sea level

Area ..... 37 square miles

Miles of Roads ..... 142

Annual Town Meeting and Election ..... First Tuesday of March.

Type of Government ..... Open Town Meeting, three-man Board of Selectmen.

Qualification for registration of voters ..... Must be 18 years of age, a citizen and resident of town. Registration with Supervisors of the Check list at times announced in local newspapers. New registrations 10 days prior to all elections.

Absentee Voting ..... Qualified voters for primary and general elections.

Dog Licenses ..... All dog licenses expire April 30th; a dog should be licensed when 3 months old.

Rabies certificate required. Fees: Male - \$2.00 — Female - \$5.00 — Spayed Female - \$2.00. After June 1, \$1.00 penalty for late licensing of dogs.

Automobile Registration Permits ..... Available from Town Clerk to residents. Resident tax receipts and car title required.

Tax Bills ..... Sent out in September or October on property assessed as of April 1st in the name of the owner as of April 1st. Resident taxes mailed June to residents age 18 to 65 as of April 1.

Zoning Ordinance — in effect — controlling the land uses in Commercial, Industrial, Residential, Agricultural, Flood Plain and Conservancy Open Space.

Greg Gaunther - Grade 11

In 1974 the Goffstown Highway Department had a busy season with several major projects on highways, sewer projects, sanitation projects, cemetery projects, and other projects that had to be done in conjunction with private contractors, and so forth. Daniel Plummer Road was completely rebuilt including loaming and seeding, culvert installation, excavation for new gravel and hot top. Due

to the late completion of Daniel Plummer Road, not as much was accomplished on St. Anselm's Drive as had been anticipated, although most of the underdrainage has been installed in the working area, and the right of way has been cut to the proper width. At present, we are waiting for the telephone company to move their poles so we can continue our underdrainage and commence our

excavation and widening.

We dynamited and excavated approximately 1500 feet of ledge on Tirrell Hill Road to straighten and widen the hill. Two new culverts were replaced for drainage.

Two more lanes were added and finished at the shopping plaza on Mast Road.

The storage shed at the cemetery was built and much grading and rebuilding of a portion of the Westlawn Cemetery including a new road, plus 600 cubic yards of loam from Mt. Road was stripped and trucked to the cemetery and then laid out and graded. More fencing is needed to complete this job, plus paving of the roadway itself. The cemetery received quite a bit of vandalism damage this fall, due to someone breaking off all of the water faucets and standpipes. Until these are replaced, no water will be available to water flowers, etc.

Approximately 5,000 tons of hot top was used this year on town roads, plus about 1,000 tons of cold patch.

Winter sand was swept off the streets again. We are using much more sand, approximately 6,000 yards, in an effort to cut down on salt usage. More new roads have been added again this year due to new developments, so even with using more sand, we are at present holding our own. We have asked for one new sander body, which will improve our sanding 100% and speed up our service. We also screened and stockpiled our winter sand again.

We received our new paker plus the two dump trucks we had asked for; and now, we should be able to give faster and more efficient service, winter and summer. We now have no hired trucks; and therefore, have better control as they are radio equipped, except for one truck. As your road agent, I expect, barring a bad accident, etc., that we should not need any new dump trucks, paker truck, or pickups for at least 5 to 8 years, with proper maintenance and care. For this, I wish to thank the selectmen, Budget Committees, and the general taxpayer as our equipment, in general, is tops and should last us a long time, even with much usage.

Our operators and drivers and laborers are conscientious people and taxpayers too, so therefore, they take pride in the equipment they operate, and for this I thank them all. These same employees weld and do mechanical work whenever the need arises, as we have no mechanic. We have three pickups, one car, seven dump trucks, (one educator

truck to clean catch basins), one sidewalk plow, one grader, two loaders, and one bulldozer. This equipment is used for highway, sanitary landfill work, cemetery and sewer department work.

As usual, many culverts, catch basins, and underdrainage was installed this year on the following roads: Black Brook Road, Tirrell Hill Road, Back Mt. Road, Warren Avenue, St. Anselm's Drive, Adams Street, Goffstown Back Road, Snook Road, Eden Street, Roy Park, Rosemont Street, and Mast Road in Pinardville.

The sludge beds at the Sewage Plant were cleaned three times this year and regaveled. This operation takes approximately four or five days to complete. A chain link fence has been installed around the grit chamber for the safety of the public. Brush and tree cutting progressed well this year. For those who ask us, our policy is to ask the property abuttor if he wants the wood we cut along the sides of the road. If not, then anyone can have it by asking the abutting property owner. In the past, through error, some property owners were in fact, not notified and this caused hard feelings, especially with the fuel situation today. For this, I apologize, (we are not perfect, either); however, we are not in the wood selling business and we try to be fair with everyone. We are not here to see how many trees we can cut down, nor to see how much money we can spend. Most of the work we do is by request of a taxpayer, selectmen, or another department, or our own decision in order to improve a given situation for all the people.

Our bridge work got underway this summer with cement work, surface sealing, sand blasting, and priming and painting of Henry Bridge as planned. Again, I request whatever bridge money may be left over that it be retained for next year as we plan to replace two of the narrow and misaligned cement bridges on Mt. Road, with multiple pipe arch, which should need no maintenance for our lifetime after installation.

St. Anselm's Drive will be completely reconstructed from approximately Myers Driveway to College Road this year, which will be a large help. From College Road to Rockland Avenue, will require complete underdrainage, and it may call for special funds as the T.R.A. Funds will not cover the cost of that section by itself in 1976. We hope to widen and straighten several bad curves on Wallace Road, particularly near the Bedford line. The usual repair and painting of our equipment will be carried out to protect our equipment.

Our road line striping and crosswalk striping was

done again this year, plus some new, due to the new traffic light installations at the shopping plaza plus, reactivating of the traffic light at Pinard Square.

Sign damage has been heavy and expensive. A program will be in effect this year, to update our stop, yield, and school and school crossing signs to conform with the national sign code. We will be reimbursed by the state for these signs at approximately a 5½ to 1 ratio so this will save us a lot of expense.

Much excavation was done at the bank of the river in back of the Recreation Building so that fire trucks could get down to the riverside in order to boost our water power at the high school, Villa, and the general area, in the event of a bad fire situa-

Daniel Plummer Road - newly reconstructed by Town.

tion. This should give our young people at the high school and the Recreation Center much more protection.

Poles were relocated at the Sanitary Landfill, and the entrance road was moved so it would be on our own property. More stringent regulations are being undertaken to keep "out of town" people from using our landfill area, with the issuance of Dump stickers and other checking methods. Now that our new building to house our equipment is completed, it is no longer necessary to have a loader travel back and forth from the uptown garage, morning and night; and it allows for more of our equipment to be housed, therefore, protecting it.

The Highway Department wishes to thank the taxpayers for their help and consideration especially during the winter months; the Fire and Police Dept., and the office girls for their patience with us during the many trials and tribulations. To all we say THANK YOU.

To the wives and families of the Highway Department, I say thank you for your patience as your husbands spend many hours away from their families so that others using our roads might do so in safety.

To the selectmen, this Department acknowledges with gratitude your untiring efforts in our behalf and thank you for the way problems were handled that came up this year.

And to my employees, thank you gentlemen for a job well done throughout this past year.

Joe Perry  
Road Agent

# SELECTMEN

John C. Sarette, Henry T. Grady, Chr. and Elmer B. Nickerson.

It is our pleasure to bring you a report of Town activities which occurred during the year 1974.

Fire Chief Morgrage announced his intention to retire early in 1975. We appreciate his dedicated service to the Town and wish him many years of happy retirement here in Goffstown.

Two full-time fire fighters were employed by the fire department which will provide for additional fire protection for our citizens and property.

Major highway projects included the completion of rebuilding Daniel Plummer Road, widening of Mast Road at the Goffstown Plaza, continuation of work on St. Anselm's Drive, resurfacing of North Mast and High Streets and continuation of the planned program for resurfacing of other Town streets and roads. Henry Bridge was repaired and painted which should insure that costly major repairs will not be required in the next few years.

The Police Department, faced with increasing demands for service, carried out its responsibilities in the professional manner we've become accustomed to.

The parks and recreation expanded programs provided for more participation in healthful activities by both youth and adults.

Expenditures for the year were \$154,912 less than what had been budgeted. This amount contributed to a large surplus for the year. We extend our thanks to the department heads for their diligent attention to budget control and the outstanding cooperation of all Town employees.

Sincere thanks and appreciation are also extended to all the committees, boards, commissions and other town officers who devoted so much time and effort to the successful operation of your town government.

Without the support and understanding of its citizens, a government cannot function effectively, so, to you, we express gratitude and appreciation.

# 1974 TOWN MEETING

1974 Town Meeting March 5, 1974

Moderator Aime R. Paradis declared polls open at 7:00 a.m. at the High School and at the Bartlett School by the Assistant Moderator. The Official Partisan Ballot was used.

Polls closed at 6:30 p.m. in both Village and Fifth Precincts.

The results of the voting were as follows:

## ARTICLE 1

SELECTMAN — 3 years

REPUBLICAN	DEMOCRATIC
Elmer B. Nickerson 893	Grover L. Miller 549

LIBRARY TRUSTEES — 3 years vote for two

Judith A. Temple 1017	Rolande Moore 850
Veronica H. Wilbar 913	Pauline Richards 1016

TRUSTEES OF TRUST FUNDS — 3 years vote for one

Walter C. Patten 1082	Robert W. Wheeler 962
-----------------------	-----------------------

BUDGET COMMITTEE — 3 years vote for four

Edna M. Carlsen 996	Raymond J. Binette 868
Charles W. Hitchcock 972	John J. Healy 920
Daniel P. McNerney 986	Frank L. Palmieri 769
Aime H. Paradis 1201	George M. Ramos 867
1 year	
Nelson MacAskill 1428	

SEWER COMMISSIONER — 3 years vote for one

Arthur W. Rose 1165	Paul E. PaPerle 904
---------------------	---------------------

## ARTICLE 2

Shall the Non-Partisan Ballot System be adopted? (By Official Ballot)

926	YES	785	NO
-----	-----	-----	----

## ARTICLE 3

Do you favor adoption of the Town Manager Plan? (By Official Ballot)

571	YES	1181	NO
-----	-----	------	----

## ARTICLE 4

Do you favor the Homeowners Exemption? (By Official Ballot)

1307	YES	480	NO
------	-----	-----	----

Article 4... Declared unconstitutional (N.H. Supreme Court Ruling — City of Portsmouth, August 26, 1974).

## ARTICLE 5

Do you favor adoption of the Boca Book National Building Code? (By Official Ballot) Recommended by the Planning Board.

964	YES	709	NO
-----	-----	-----	----

## ARTICLE 6

Amending Zoning maps from Residential to Commercial. (By Official Ballot)

831	YES	729	NO
-----	-----	-----	----

## ARTICLE 7

Amending Zoning maps from Conservancy to Residential. (By Official Ballot)

## ARTICLE 11

Amending Zoning maps from Agricultural to Residential. (By Official Ballot)

828	YES	677	NO
-----	-----	-----	----

## ARTICLE 12

Do you favor adoption of the Life Safety Code? (Recommended by the Planning Board.) (By Official Ballot)

1230	YES	373	NO
------	-----	-----	----

1974 TOWN BUSINESS MEETING March 9, 1974  
The meeting was called to order by Moderator Aime R. Paradis at 1:05 p.m. at Goffstown High School.

## ARTICLE 1

George Williams was nominated and elected Cemetery Trustee for 3 years.

Leo Charest and Peter Jenkins were nominated and elected Fire Wardens for 3 years. (Vote by paper ballot).

Peter Jenkins	240
Leo Charest	224
Laurent Beaulac	111
Robert Pare	139

## ARTICLE 13

Borrowing in anticipation of taxes. Approved by voice vote.

## ARTICLE 14

Sale of Town Property. Amended to read by public auction. Adopted by voice vote.

## ARTICLE 15

Purchase of Public Service Co. land for Sanitary Landfill for \$68,000.00, about 38 acres. Approved by voice vote.

## ARTICLE 16

Authorizing Selectmen to make withdrawals from Revenue Sharing Fund for set-offs against budget appropriation. Approved by voice vote.

## ARTICLE 17

Purchase of Loader for Highway Department with funds from Capital Reserve Account. Approved by voice vote.

## ARTICLE 18

Appropriation of \$15,00.00 for new traffic control system at Mast Road and Pinard Street. Approved by voice vote.

## ARTICLE 19

Appropriation of \$6,600.00 to reimburse Goffstown Truck Center for public transportation losses for the year 1974. Approved by voice vote. (Disapproved by the Department of Revenue Administration)

## ARTICLE 20

Removal of surface water on Manchester end of Mast Road at cost of \$15,00.00 50% sharing of cost with the City of Manchester. Approved by voice vote.

**ARTICLE 21**

Purchase of 58 acres of land on the north side of Glen Lake presently owned by the Water Resources Board for the sum of \$30,000.00. For recreational purposes. Rejected by standing vote. (Inserted by petition)

**ARTICLE 22**

Extension of sidewalk on Pleasant Street and New Boston Road to Hermsdorf Avenue for the sum of \$25,000.00. (Inserted by petition). Not approved by voice vote.

**ARTICLE 23**

Appropriation of \$48,491.00 for dog control program. Not approved by voice vote.

**ARTICLE 24**

Town Budget. Raise by taxes the sum of \$981,070.00 (County tax not included). Amended to read . . . . and raise \$1,002,670.00 to include Article 19 \$6,600 and Article 20, \$15,000.00. Approved by voice vote. Motion to reconsider article was

defeated.

**ARTICLE 25**

Withdrawal from Revenue Sharing Fund. Motion made to dismiss article as it is included in Article 24. Seconded and voted to dismiss by voice vote.

**ARTICLE 26**

Approval of Town Officers' reports as printed. Approved by voice vote.

**ARTICLE 27**

To transact any other business that may legally come before said meeting.

**ARTICLE 28**

To authorize Selectmen to make application for and accept State and Federal grants. Approved by voice vote.

Meeting adjourned at 5:18 p.m.

Attested a true record by George T. Aimo, Town Clerk, Goffstown

# 1975 TOWN WARRANT

To the inhabitants of the Town of Goffstown in said County of Hillsborough, in said State, qualified to vote in Town Affairs and to the inhabitants of the School District in the Town of Goffstown qualified to vote in School District Affairs:

You are hereby notified to meet at the Goffstown High School in said Town on Tuesday, the 4th day of March at six o'clock in the forenoon, to act on the following subjects:

The polls will open at 6:00 A.M. and close at 6:30 P.M. at the Central Polling Place and will open at 6:00 A.M. and close at 6:30 P.M. in the Fifth District Bartlett School.

You are hereby notified to meet at the Goffstown High School, Saturday, March 8, 1975 at 1:00 P.M. where the business meeting will take place.

None of the articles in the warrant, except those relating to the election of officers and those covering questions on the ballot shall be considered during the time that the polls are open.

1. To choose all Town Officers, Trustees and Commissioners, and School District Officers for

the ensuing years, including a member of the Board of Selectmen for three years.

2. Do you favor adoption of the Town Manager Plan as provided in Chapter 37 of the Revised Statutes Annotated? (By Official Ballot).

3. To see if the Town will vote to adopt the Australian ballot system for the election of Town Officers. (By Official Ballot).

4. To see if the Town will vote to amend the Goffstown Zoning Maps as adopted at the Town Meeting March 14, 1961, and subsequently amended by changing the classification of properties listed below from Residential (RA) to a classification of Commercial. Said amendments are on file with the Town Clerk: Tax Map 15, Lots 3-6-46-49A-54-55-56-60-64-133-149A-120-121-198-203-203A-202-161-162-163, Tax Map 16, Lots 112 & 112-1, Tax Map 3, Lot 37B (By Official Ballot).

5. To see if the Town will vote to amend the Goffstown Zoning Maps as adopted at the Town Meeting March 14, 1961, and subsequently amended by changing the classification of properties list-

ed below from Industrial to Commercial. Said amendments are on file with the Town Clerk: Tax Map 3, Part of Lot 37, Tax Map 18, Lot 39. (By Official Ballot).

6. To see if the Town will vote to amend the Goffstown Zoning Maps as adopted at the Town Meeting March 14, 1961, and subsequently amended by changing the classification of properties listed below from partly Residential and Commercial to Commercial. Said amendments are on file with the Town Clerk: Tax Map 38, Lot 78. (By Official Ballot).

7. To see if the Town will vote to amend the Goffstown Zoning Ordinance Article V, Section C Conservancy and Open Space District by deleting special exception 3c which reads animal and stock raising and add to permitted uses:

(f) Farm buildings located at least 100 feet from a residential district boundary, (g) General farming including horticulture, plant nurseries, greenhouses, dairying, livestock, animal and poultry raising, and other agricultural enterprises or uses, (h) Roadside stands for the sale of farm products raised on the premises, provided that at least five off-street parking spaces are provided and that no stand is located nearer than 15 feet to any street or lot line, (i) Stables, riding academies. (By Official Ballot).

8. Are you in favor of adopting the amendment as proposed by the Board of Selectmen for the town building code ordinance which reads as follows:

The Building Official shall review all building permit applications for new construction or substantial improvements to determine whether proposed building sites will be reasonably safe from flooding. If a proposed building site is in a location that has a flood hazard, any proposed new construction or substantial improvement (including prefabricated and mobile homes) must (I) be designed or modified and anchored to prevent flotation, collapse, or lateral movement of the structure, (II) use construction of materials and utility equipment that are resistant to flood damage, and (III) use construction methods and practices that will minimize flood damage. (By Official Ballot).

9. To see if the Town will vote to adopt the re-zoning of the area of East Joppa Hill Road bordering the present conservancy open space zone, from agricultural to conservancy open space zoning. From the Bedford Town Line north along west side of Wallace Road to Mountain Base Road,

west along south side of Mountain Base Road to Worthley Hill Road, north along west side of Worthley Hill Road to presently zoned conservancy and open space area. (Inserted by petition) (By Official Ballot). Not approved by Planning Board.

10. To see if the Town agrees to participate in the National Flood Insurance Program by directing the Board of Selectmen to complete the eligibility application and submit the required information to the Federal Insurance Administration.

11. Whereas certain areas of Goffstown are subject to periodic flooding from streams, rivers, lakes, causing serious damages to properties within these areas; and

Whereas relief is available in the form of Federally subsidized flood insurance as authorized by the National Flood Insurance Act of 1968; and

Whereas, it is the intent of this town meeting to require the recognition and evaluation of flood and/or mudslide hazards in all official actions relating to land use in the flood plain areas having special flood (and/or mudslide) hazards; and

Whereas, this body has the legal authority to adopt land use and control measures to reduce future flood losses pursuant to N.H. RSA Chapter 31, 36, 156, 156A,

Now Therefore, be it resolved, that this Town Meeting hereby:

1. Assures the Federal Insurance Administration that it intends to enact and maintain in force for those areas having defined flood hazards, adequate land use and control measures with effective enforcement provisions consistent with the Criteria set forth in Section 1910 of the National Flood Insurance Program Regulations; and

2. Vests the Planning Board or any duly authorized Town Officer with the responsibility, authority, and means to:

(a) Delineate or assist the Administrator, at his request, in delineating the limits of the areas having special flood hazards on available local maps of sufficient scale to identify the location of building sites.

(b) Provide such information as the Administrator may request concerning present uses and occupancy of the flood plain.

(c) Cooperate with Federal, State, and local agencies and private firms which undertake to study, survey, map, and identify flood plain or mudslide areas, and cooperate with neighboring communities with respect to man-

agement of adjoining flood plain in order to prevent aggravation of existing hazards.

(d) Submit on the anniversary date of the community's initial eligibility an annual report to the Administrator on the progress made during the past year within the community in the development and implementation of flood plain management measures.

3. Appoints the Building Official to maintain for public inspection and to furnish upon request a record of elevations (in relation to mean sea level) of the lowest floor (including basement) of all new or substantially improved structures located in the special flood hazard areas. If the lowest floor is below grade on one or more sides, the elevation of the floor immediately above must also be recorded.

4. Intends to take such other official action within its powers as may be reasonably necessary to carry out the objectives of the program.

12. Whereas the Town has adopted and is enforcing town zoning ordinances and subdivision regulations and

Whereas all the aforesaid prohibits any person, firm or corporation from erecting, instructing, enlarging, altering, repairing, improving, moving, or demolishing any building or structure without first obtaining a separate building permit for each building or structure from the Building Official; and

Whereas the Building Official must examine all plans and specifications for the proposed construction when application is made to him for a building permit.

Now Therefore, be it enacted by the town meeting of Goffstown, as follows:

1. The Town Meeting recommends that the Planning Board amend their regulations pertaining to the flood hazard area to assure that (i) all proposals are consistent with the need to minimize flood damage, (ii) all public utilities and facilities, such as sewer, gas, electrical, and water systems are located, elevated, and constructed to minimize or eliminate flood damage, and (iii) adequate drainage is provided so as to reduce exposure to flood hazards; and

2. The Town Meeting recommends that the Planning Board amend their regulations pertaining to the flood hazard area to require new or replacement water supply systems and/or sanitary sewage systems to be designed to minimize or eliminate infiltration of flood waters

into the systems and discharges from the system into flood waters, and require on-site waste disposal systems to be located so as to avoid impairment of them or contamination from them during flooding, pursuant to N.H. RSA 36:21.

13. To see if the Town will vote to authorize the Selectmen to borrow from time to time, such sums of money in anticipation of taxes as may be needed to meet the necessary running expenses of the Town.

14. To see if the Town will vote to authorize the Selectmen to administer or dispose of any real estate acquired by the Town through Tax Collector's deed, purchase, prescription, or gift.

15. To see if the Town will vote to authorize withdrawal from the Revenue Sharing Fund established under the provisions of the State and Local Assistance Act of 1972 for use as set-offs against budget appropriations, and more particularly in the sum of \$120,000.00 and, further to authorize the Selectmen to make pro-rata reductions in the amounts of estimated entitlements are reduced or take any action hereon.

Town Officer's Salaries — \$10,000.00

Town Officer's Expenses — \$35,000.00

Library — \$15,000.00

Fire Department — \$50,000.00

Town Building — \$10,000.00 (Recommended by Budget Committee).

16. To see if the Town will vote to raise and appropriate the sum of \$10,000.00 for the purchase and installation of fencing at the Sanitary Landfill area. Said sum to be withdrawn from the Revenue Sharing Fund established under the provision of the State and Local Assistance Act of 1972. (Recommended by the Budget Committee).

17. To see if the Town will vote to appropriate the sum of \$20,905.00 to purchase a parcel of land in East Goffstown, erect a heated building thereon

and obtain fire fighting equipment which will be stored therein. Said sum to be administered by the Selectmen; and, further to authorize the withdrawal of the amount requested for this purpose from the Revenue Sharing Fund established under the provisions of the State and Local Assistance Act of 1972. (Inserted by Petition) (Recommended by Budget Committee).

18. To see if the Town will vote to raise and appropriate a sum not to exceed \$25,000.00 for the purpose of preparing a facilities plan for sewerage and sewage treatment for the Town, including completing an infiltration/inflow analysis and also including acquisition of land, easements and right-of-way as required, or any other requirements contained in P. L. 92-500 which will qualify the Town for Federal funds, such sum to be appropriated under and in compliance with the provisions of the Municipal Finance Act (Chapter 33 of the New Hampshire Statutes Annotated 1955 and any amendments thereto) as shall be in the best interests of the Town of Goffstown and pass any vote relating thereto. (Recommended by Budget Committee).

19. To see if the Town will vote to authorize the Sewer Commission to apply, negotiate and do all other things necessary to obtain such Federal, State, or other assistance as may be available for the construction of a sewage disposal system, and pass any vote relating thereto.

20. To see if the Town will vote to appropriate the sum of \$5,000.00 to install up to 6 dry hydrants to be located in the outlying districts of the Town; to be administered by the Selectmen; and, further to authorize the withdrawal of the amount requested for this purpose from the Revenue Sharing Fund established under the provisions of the State and local Assistance Act of 1972. (Inserted by Petition) (Recommended by Budget Committee).

21. To see if the Town will vote to raise and

appropriate the sum of \$7,400.00 and to authorize the Selectmen to reimburse the Goffstown Truck Center, Inc. for losses incurred in its public transportation operation for the year 1975. The amount of reimbursement shall not exceed \$7,400.00 (Without recommendation of the Budget Committee).

22. To see if the Town will vote to instruct the Moderator to appoint five persons to assist the Selectmen in selecting a Town Manager, providing that the Selectmen desire this assistance and further providing that the Town votes to adopt the Town Manager Plan? (Inserted by Petition).

23. To see if the Town will vote to adopt the budget as submitted by the Budget Committee in the amount of 1,501,052.11 and raise by taxes the sum of 1,134,466.11 (County tax not included) (Recommended by the Budget Committee).

24. To see if the Town will vote to authorize the Selectmen to make application for and accept on behalf of the Town, any and all grants which may now or hereafter be forthcoming from the State of New Hampshire and/or the United States.

25. That said New Hampshire Housing Commission is authorized to sponsor a project, under Section 8 of the U.S. Housing Act of 1937, as amended, for any of the following dwelling accommodations or a combination thereof: (a) Existing standard housing; (b) rehabilitated housing; (c) newly constructed housing; the total amount of the foregoing not to exceed 75 dwelling units.

26. To transact any other business that may legally come before said meeting.

Given under our hands and seal this 10th day of February, 1975.

Henry Grady

#### ACCOUNTANTS' OPINION

To the Board of Selectmen  
Goffstown, New Hampshire

We have examined the balance sheet of the various funds of the Town of Goffstown as at December 31, 1973 and 1972 and the related statements of operations for the years then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the aforementioned financial statements present fairly the financial position of the various funds of the Town of Goffstown at December 31, 1973 and 1972 and the results of their operations for the years then ended, in conformity with generally accepted accounting principles applicable to governmental entities, applied on a consistent basis.

Louis M. Mancarella  
Certified Public Accountant

September 24, 1974

# SOUTHERN N.H. PLANNING COMMISSION

Commission activities have become diversified to a point where data on varying topics such as land use, employment trends, population increases/decreases, availability of federal assistance programs, sewer and water facilities planning, and aerial photography is available or will be forthcoming in the near future. This type of information is beneficial for individual municipalities such as Goffstown for use in shaping future direction through growth policies.

## Local Affairs

The Commission staff helped prepare the timetable and related materials for the necessary public hearings on zoning revisions. A staff member was in attendance at the twenty-nine (29) Goffstown Planning Board meetings to render technical assistance as well as recording the proceedings. Support services including providing the Board with data necessary for evaluating proposed subdivisions, assessing the impact of major developments, conducting on-site inspections, preparing meeting related correspondence, and conducting research on varying topics, as they relate to New Hampshire State Statutes Annotated, Federal Law, etc.

The Commission staff will be providing assistance in generating an attitudinal survey which will be distributed to Goffstown residents. The result of analyzing the responses to the questionnaire will be a set of policies which are indicative, or predicated upon, local desires.

Early in the year, the New Hampshire Department of Public Works and Highways conducted informational hearings regarding the widening of existing N.H. 114, which would involve extensive property takings, as well as funnel traffic through Goffstown Village. It was obvious that public opinion was not in favor of this alternative. As a result, the SNHPC went on record as being in favor of the concept of an alternate route located to the north of existing N.H. 114.

Another facet of Commission activities deals with the conducting of aerial photo flights in the spring of 1975. The negatives of these flights will be available to Goffstown on a no-charge basis, and could be used to update the tax maps.

## Metropolitan Affairs

Early in the year, Governor Thomson designated the Southern New Hampshire Planning Commission as the agency responsible for multimodal transportation planning on an areawide basis, and therefore eligible to receive Section 112 monies under the auspices of the Federal Aid Highway Act, 1973. As part of the Unified Work Program the Commission is currently doing highway, bus, and air planning through surveys and inventory techniques. The original transportation plan for the Metropolitan Manchester Planning Study Area, of which Goffstown is a part, is currently being re-evaluated in terms of goals and objectives, recent data, evolving trends, and inconsistency of previous plans.

The Commission has formed various sub-committees which deal with the different facets of the overall program design. These include Government Management and Coordination, Regional Planning and Growth Policies, Special Projects, Environmental Protection, Transportation, and Administrative activities. Based upon information supplied by SNHPC staff, these sub-committees come forth with recommendations to the full Commission Board in their specific areas of concern.

As part of the Solid Waste Management Study, the Commission selected possible sites for sanitary landfill operations in all towns, and provided

information to each municipality on the various methodologies/techniques for establishing such sites.

Progress was made regarding intermunicipal agreements for water sewerage and solid waste management programs, in that the model ordinances drafted by the Commission's attorney were adopted by Bedford and Londonderry at the Town Meeting. Goffstown is currently operating under RSA 252, which allows the selectmen to negotiate with other municipalities for sewerage and waste treatment facilities. At the present time, Bedford, Goffstown and the Manchester Highway Department are coordinating their sewer construction programs. In the same light, the Commission is currently engaged in applying for funding a water quality management study.

## Goffstown Representatives

Mr. Paul Bedard, who replaced Mr. Roger Aubin as Chairman of the Goffstown Planning Board, is one of the representatives to the Commission. Mr. Arthur Rose, Chairman of the Goffstown Sewer Commission, was elected Chairman of the Southern New Hampshire Planning Commission at the July meeting. Mr. Rose also serves on the Executive Committee as well as all other operating sub-committees on an ex-officio basis.

# BOARD OF ADJUSTMENTS

The board of adjustment is appointed by the selectmen to hear petitions for variances or exceptions to the ordinance, in accordance with the limitations in the ordinance. Scheduled public hearings are on the first Wednesday of every month at seven thirty in the Town Hall unless otherwise published.

Board members serve without pay for an appointed term to represent the best interests of all in accordance with the zoning code.

Over the last year sixty-three (63) petitions were heard. Fifty-two (52) were granted and eleven (11) denied.

Requests for building permits that do not comply with the conditions of the Zoning Ordinance require that you petition the Board Of Adjustment for a variance or an exception to the ordinance. If that petition be granted then the petitioner can obtain a permit and begin construction. Violations of the procedure are subject to court order and possible

other fines. Petitions brought before the Board should be explicit, correct and to scale, otherwise delays result. Check the zoning code for your area with the Selectmen's office or call on your Board members for assistance prior to start of any construction to preclude any unnecessary delays or hardship.

Richard I. Barnard

# PLANNING BOARD

During the year, the Shopping Center for which plans were accepted last year became a reality, and was constructed in the manner prescribed by the Board during its review of the site plans. Large scale development is now a reality, and plans for multi-family as well as some single-family housing has been accepted.

Some original design concepts, such as "pie-shaped" lots on cul-de-sac roads have made housing more attractive in these large-scale developments. Cooperation between the Planning Board and Developers has been the key to success which is helping to promote growth in an orderly fashion within the community.

Development within the light industrial park on Daniel Plummer Road is progressing, and the first tenant, DMCO Fiberglass Corporation has begun the construction of their plant. This is again in help-

ing with the concept of encouraging industries of a non-polluting nature to locate within the town.

Your acceptance last year of the BOCA Building Code has encouraged the safe construction of new housing units during the past year. At the present time, the Town Selectmen are charged with code enforcement; it is hoped that you will actively support the proposed employment of a town engineer who would be able to better enforce the code, as well as perform other important functions for the town.

This past year, three members of the Planning Board resigned for various personal reasons; the loyalty and hard work of Roland Barnard, Lloyd Sorenson and Roger Aubin is greatly appreciated, and will be missed.

Our new Chairman, Paul Bedard, and the people who have been appointed as replacements, name-

ly: Milton Meyers, Stephen Mattil and Diana Sterling, are anxious and very capable of serving the town. Of importance in the ensuing year will be the generation and distribution of a questionnaire to the townspeople, which will enable the Board to assess the Community's goals for development as a whole, and plan for the town based on the wishes of the townspeople.

Thank you for the support you have given us in helping to make the Community as attractive as possible.

Paul Bedard, Chairman  
Arthur Rose, Secretary  
Robert Preston  
Henry Grady  
Milton Meyers  
Diana Sterling  
Stephen Mattil

# TOWN CLERK

# POLICE DEPARTMENT

The Goffstown Police Department, for the first time in many years, experienced a tapering of the acceleration of crime in the community. Curiously, the rate of increase slowed remarkably during the last quarter of 1974; in terms of the statistical experience of the department, this is an unusual, though appreciated trend.

While the Serious Crime Index increased 9.19%, the General Crime Index increased only .09%, and the Serious Accident Index decreased 3.52%, the latter despite that fact that the town registered its first fatal accident in four years.

The number of reported accidents decreased from 477 to 422, an 11.53% decrease, while investigated accidents increased 15.13%. Such factors are compensated in the index computation by the fact that injuries diminished by 15.23%. Hit and run accidents, which decreased greatly in the previous year, underwent a further decrease of 19.23%. The great increase in two-vehicle accidents of the previous year disappeared, with a 40.6% decrease, while single-vehicle accidents soared 46.51%.

Burglary was one category that experienced an

increase; breaking and entering increased 20.18%, with an alarming increase in residential burglary of 44.73%. Many of the residential burglaries experienced were committed during the daylight hours. Camp burglaries increased by 63.63%, while attempted burglaries increased 75%. The rate of business burglary decreased 5%.

While the complaint-activity load increased only 8.31%, the last three years have brought a cumulative 45.86% increase, a change that has been very difficult to deal with.

Evaluation of the statistics for the year 1974

yielded concern in several additional areas. Malicious property damage increased by 59.44%, including substantially more than \$15,000 damage to property. Disorderly conduct reports increased 96.26%, an alarming increase in terms of the manpower necessary to handle this particular category. Larceny complaints were up 27.32% accounting for over \$35,000 in stolen property.

Narcotics complaints and nuisance complaints both increased by 22.22%, while suspicious person and suspicious vehicle complaints increased 33.33% and 66.94% respectively.

Decreases were realized in sudden deaths, sex complaints, prowler complaints, noise complaints, motor vehicle complaints, and malicious mischief complaints.

There were a total of 1093 arrests, 705 for motor vehicle violations, and 388 for criminal violations. Over 50% of all arrests were of persons under the age of 22 years. **FACTS AND FIGURES:** The following table represents pertinent statistics recorded and evaluated by the Goffstown Police Department:

Category	Number 1974	Percentage Difference from 1973
Accidents Reported	422	-11.53%
Complaints	5092	+8.31%
Accident Injuries	89	-15.23%
Burglaries	131	+20.18%
Malicious Property Damage	287	+59.44%
Larceny	410	+27.32%
Motor Vehicle Complaints	458	-10.72%
Courtesy Calls	344	+19.03%
Dog Complaints	474	+22.16%
Hit and Run Accidents	42	-19.23%
Mileage Covered	164596	-16.21%

#### Improved Services:

Most personnel utilization in 1974 was primarily to stem the gross increases in the crime rate from the previous year. The Town of Goffstown is starting to experience police problems previously unprecedented, and unfortunately the trend in serious criminality is increasing its upward surge.

One of the programs to counteract crime, instituted during the previous year, has been accelerated, particularly owing to the substantial increase in residential burglary. The Crime Prevention Program this year will be a priority, with one patrolman attending a month-long training session in Kentucky to develop understanding of, and capabilities in the prevention of crime. It is anticipated that this program will be of significant benefit to businessmen and homeowners during 1975.

Predicated on the fact that much of the categorical increases in crime have been in those areas that are primarily related to young people and juveniles, the police department, in cooperation with the Goffstown District Court, has stepped-up its efforts to deal with juvenile delinquency and youth problems. The activity in the Youth Services Division increased 118% during the past year, and it is felt that more services and personnel are required to meet the increasing demand. Goffstown has not escaped the increases in youth-related crime that have been experienced throughout the nation.

The Youth Services Division has instituted several new programs, including a program specifically for young ladies in the Pinardville Boys Club, and

a Summer Camp Program for indigent young people. A job bank has also been created to assist young people in acquiring summer jobs. The Youth Adult Council has been reactivated and it is hoped this will increase the solvency of the relationship between the young people and the adults of the community.

The department is continuing its support of the Goffstown Police Explorer Post and the Summer Cadet Officer Program funded by the Governor's Commission on Crime and Delinquency.

Chief Robert Wike, and the staff and personnel of the Goffstown Police Department, extend their thanks to the citizenry of Goffstown for their continued support, and look forward to another year of mutual cooperation.

# FIRE DEPARTMENT

New Fire Chief Kenneth A. Fowler and Retiring Chief Theron Morrage.

#### TO THE CITIZENS OF GOFFSTOWN

When you read this, as most of you know, I will no longer be your fire chief. After 27 years it is time to let someone else take over the reins of the fire department.

At this time I would like to express my sincere thanks to everyone for the never to be forgotten testimonial and gifts honoring me on my retirement.

Your new chief is Kenneth Fowler of California and more recently of Sunapee, N.H. He comes to us highly recommended by knowledgeable men in the fire service. I am sure that he will make you a good chief.

This has been a high loss year as indicated below.

During one of our training drills at the high school it was discovered that there was a lack of water for fire protection. Steps were immediately taken to try to resolve this situation.

Through the cooperation of the Board of Selectmen large diameter hose has been purchased. Also with the cooperation of the Highway department an area was excavated to the rear of the Recreation building for the purpose of installing two dry hydrants into Glen Lake.

The large diameter hose and dry hydrants make it possible to deliver a large volume of water to the School. This will also give us protection at the Villa Augustina. Furthermore, this large hose can be used in many other places should the need occur.

To all my firemen and residents thank you for the opportunity to have served you.

Respectfully submitted,  
Theron J. Morgrage

# SEWER COMMISSION

## Annual Report of Sewer Commission — 1974

1974 was a year filled with much of interest to the Sewer Commission, including many developments which will affect the future of pollution abatement in the Town. Throughout the year the Commission kept abreast of progress on the regional pollution abatement program which will be carried out jointly by Manchester and the surrounding towns. The towns will own and operate sewer systems within their borders; Manchester will pipe the flow from the City line to the treatment plant and treat it in the new plant at Brown Avenue.

Many Goffstown businesses filled out questionnaires during the year to provide flow data to Manchester both for plant operation planning and to assist in computing charges from the City to the Town. Under the current Federal law, it is mandatory that a user charge be made at least adequate to cover operating costs of the system. Manchester will make a single charge to the Town which must in turn be collected by the Town from the individuals sewered to the Manchester system. Pinardville is sewered to Manchester now, and the Town's discharge permit will require that the Goffstown Village system be connected to the regional system and stop polluting Glen Lake.

The Town has two needs for sewer work — correction of problems in the existing systems, and design and construction of a new interceptor to the Village to abate pollution of Glen Lake and permit sewer extensions to areas where septic tank systems are failing. Under present laws, essentially all this work, including repair and modernization of the existing systems, appears to be eligible for State and Federal grants totalling 95% of cost.

Problems with the existing system are basically excessive flows due to leaky joints, broken pipe, etc. which allow groundwater to enter the sewers (infiltration), and/or combined sewers, where catch basins are connected to the sewer system. As a result of these problems, both Pinardville and the Village dump excess untreated sewage into the Piscataquog River or Glen Lake in wet seasons. Also, in both areas the wet season flows result in lack of capacity which has restricted development and prevented extension of sewer service to areas needing it. The excess flow at Pinardville results in

several times normal flow going to the Manchester system for months at a time; this condition must be corrected before the City starts metering and treating the flow (possibly as soon as 1977) or users bills will be unreasonably high.

The construction of the interceptor to the Village will be a lengthy process, involving 2 or 3 years for design and about another 2 years for construction. Correction of the problems of the existing system can be done concurrently as part of the interceptor project. Grants are made at 3 stages of development: for the "Facilities Plan" or preliminary engineering, for final design, and for construction. The Commission has obtained a State priority for grants for the first step, the Facilities Plan. We expect to apply formally for this grant after Town Meeting, and to commence this work in 1975.

To summarize, during 1974 the Sewer Commission reached the conclusion that the Town should proceed to correct problems and modernize its sewer systems in the immediate future. This action is necessary because it will benefit the Town, financially and otherwise, but more particularly because it will be required by the Federal and State governments under recent environmental legislation. Two articles contained in the Town warrant should be noted. One will authorize the Sewer Commissioners to take all necessary action to obtain maximum State and Federal funding. The other calls for an appropriation not to exceed \$25,000.00 for preparation of the required Facilities Plan. Initiation of the second step, final design, can then be anticipated in 1976.

Respectfully submitted

Arthur W. Rose, Chairman  
Marcel Genest  
Laurent Beaulac

# WATER PRECINCTS

## RECORD OF ANNUAL PRECINCT MEETING

March 11, 1974

The Annual Meeting of the Goffstown Village Water Precinct was held at the Goffstown Upper Elementary School.

The meeting was called to order at 7:40 P.M. by the Moderator, Gardner Lamson. Henry Burnham was appointed as Clerk to serve during the meeting.

It was voted to dispense with the reading of the Warrant and take up each article in order.

### Article I

Gardner Lamson was nominated and elected to the office of Moderator and took oath of office in open meeting.

Janet Poore was nominated and elected to the office of Clerk.

### Article II

Laurence E. Whitten was nominated and elected to serve as a Water Commissioner for a five year term.

### Article III

It was voted to accept the report of the Budget Committee of Forty-One Thousand Nine Hundred (\$41,900.00) Dollars and appropriate same.

### Article IV

It was voted to allow the Board of Water Commissioners the right to hire money in excess of Three Hundred (\$300.00) Dollars due to any emergency.

### Article V

Laurence Whitten, Chairman, reported on the progress of the Water Board during the past year. Total Water used was 9,880,590 Cubic Feet, 6,666,030 Cubic Feet from the Reservoir and 3,214,560 Cubic Feet from the gravel packed wells.

It was voted to accept the report of the Auditors.

It was moved by Peter Jenkins and voted to observe a moment of silence in respect to the memory of the late Charles Gutterson, who had dedicated many years to the Precinct.

Cheryl O'Clair - Grade 11

### Article VI

It was moved by Peter Jenkins and so voted that the Board check on the location of the fire hydrant at the high school, as it is sometimes inaccessible due to snow and mud.

Kenneth Hambleton moved that the Precinct consider a duplicate water main crossing the river to be laid in the river bed above the dam. The Water Board will check into this possibility.

As there was no further business the meeting adjourned.

Henry L. Burnham, Clerk Protem

A True Copy of Record

Attest:

Henry L. Burnham, Clerk Protem

## REPORT OF BOARD OF WATER COMMISSIONERS

Laurence Whitten, Chairman

The State of New Hampshire Pollution Control Commission states that our Coliform Count per 1,000 ML. is less than one. The demand for water during the past year has set a record, the amount used reaching the figure of 9,292,320 Cubic Feet for 1973 and 11,542,550 Cubic Feet for 1974. During the dry period of three months the cost of electricity to run the pumps was \$1,219.50. If the demand for water increases due to new developments, etc. we will be faced with a problem. We have been consulting with engineers and we

expect to have a plan, which will relieve us and help us with this problem. The dams have been inspected by the New Hampshire Supply and Pollution Commission and with a few corrections have been approved. We ask that our water consumers try to use less water during the dry periods, so that all concerned may receive benefit.

## WATER COMMISSIONERS

Hedley Pingree	Term Expires 1975
Albert Gilbert	Term Expires 1976
Henry Burnham	Term Expires 1977
Albert Merrill	Term Expires 1978
Laurence Whitten, Chairman	Term Expires 1979

## WARRANT FOR ANNUAL PRECINCT MEETING

March 10, 1975

To the Inhabitants of the Goffstown Village Precinct qualified to vote in Precinct Affairs:

You are hereby notified to meet at the Goffstown Upper Elementary School in said Goffstown in said Precinct on Monday, March 10, 1975 at 7:30 o'clock in the evening to act upon the following subjects:

### Article I

To choose all necessary officers for the ensuing year including a Moderator and Clerk.

### Article II

To elect one (1) Member of the Board of Water Commissioners for Five (5) years.

### Article III

To see if the Precinct will vote to accept the report of the Budget Committee of Forty-one Thousand and (\$41,000.00) Dollars and appropriate same.

### Article IV

To see if the Precinct will vote to allow the Board of Water Commissioners the right to hire money in excess of Three Hundred (\$300.00) Dollars due to any emergency.

### Article V

To hear the reports of the various Officers of the Precinct and pass any vote thereto.

### Article VI

To transact any other business that may come before said Meeting.

Given under our hand and seal this third day  
of February, 1975.

Laurence E. Whitten  
Hedley Pingree

# RECREATION

Under the direction of Dana R. Anderson and the Parks and Recreation Commission of Clint Robinson (chairman), Janet MacDougall (secretary), Bill Hodgdon, Nel Cullerot, Roland Bernard, Sheldon Hall, and Dave Pollard; special events, program improvement, new equipment, and facility improvements, highlighted the year.

Attendance soared, as the summer program began. The Red Cross Swimming program and other pool activities gave the young as well as the old, many hours of pleasure. Many new ideas took shape in the area of playground activity as the summer progressed, and the children of Goffstown enjoyed an active summer of recreation.

### Highlights —

In the month of April, the children of the community participated in one of the year's biggest recreation events, "The Easter Egg Hunt". Over

500 youngsters participated in the "Hunt" and received more than fifty prizes, including a ten-speed bicycle.

Also in April, the first Recreation Gymnastic Show was provided by girls age 10-15. They demonstrated their vaults, and routines on the uneven parallel bars, balance beam, and floor exercise to the delight of over 200 spectators.

The third "Annual Senior Citizen's Day" was held in October. Many of our fine seniors enjoyed "their" day with entertainment provided by our own high school and junior high school students.

The Parks and Recreation Department offered many other programs to the community such as Dog Obedience classes, Women's Tennis League, Volleyball, Gymnastics, Basketball, Dance, and many more.

The Department continued the Park beautification project. New playground apparatus was installed at Roy and Barnard Parks; Roy Park tennis courts were re-surfaced, and a professional basketball court was installed at the Recreation Building.

Looking ahead to 1975 —

Roy Park will receive a new sand filter at Roy Memorial Pool; more new playground apparatus will be installed at both Roy and Barnard Parks, and more "Special Events".

Dana R. Anderson  
Director of Parks and Recreation

## TOWN OF GOFFSTOWN TOWN REPORT 1974

### Pinardville Clubhouse Manchester Boys' Club, Inc.

The Boys' Club is in its fourth year of operation, at 29 Glenridge Avenue, in the Pinardville section of Goffstown. In these four years, the Boys' Club has grown from the basement of the Bartlett school to providing services for over 500 different boys in its membership.

The club is staffed by two professional youth workers and a corp of part-time employees. The bulk of funding needed to operate the Boys' Club comes from the United Community Service of Greater Manchester.

Pinardville Clubhouse is a unit of the Manchester Boys' Club Incorporated. The Boys' Club is a private non-profit organization dedicated to helping boys find and help themselves. The annual combined attendance at the club reaches well over 40,000.

Activities offered fall into four categories;

1. Physical Education
2. Health
3. Social Recreation
4. Education

The goal of the Boys' Club is to provide guidance through its activities.

1974's total membership was 448 boys. Our average daily attendance ranged from 85 to 150 individuals. These boys participated in many ac-

tivities including art, crafts, basketball, hockey, soccer, softball, ping pong, pocket billiards, chess, checkers, photography, dances, overnights, and camping. In addition to the building oriented programs, trips and educational tours are held to places of interest around the New England area.

Members of the Boys' Club also attended Camp Foster, an 8 week day camp offered by Manchester Boys' Club. Many co-educational activities are provided for boys and girls in Junior High and High School.

Special events such as a pot luck dinner, talent show, mother and son night, father and son night, and youth leadership day brought over 700 boys, girls, and parents to the club during National Boys' Club Week.

Group Clubs have been formed for boys with special interests. Our Graniteer Keystone Club won national recognition for their service to other boys in sponsoring the club's radio station. They have been active as a source of many services to the Boys' Club and community.

Future plans for the Boys' Club include a limited program for girls, operation of the building during the summer as well as joint programs with other agencies in Goffstown. We hope to expand our services and reach more boys and girls by utilizing facilities throughout the community.

We express our gratitude to all parents and friends who have supported us directly by gifts of time, energy and money, or indirectly by contributing to the United Way. We extend an open invitation to visit us and see the Boys' Club in action.

## LIBRARY

hoping for a date early in January 1975 to get our new schedule underway with stops to be made at the Bartlett School in the Pinardville area, the Goffstown Plaza and Grasmere Village. A complete schedule will be published when we have it finalized.

We realize our costs will rise somewhat with the running expenses and more books will be needed, but we will be able to reach more children & adults in all sections of town and at a fraction of the cost of a new building of the renting of a building in the Pinardville or Grasmere areas. Per capita our bud-

get costs each person in town approximately \$2.60 per person for a whole year. It seems like a bargain in this day of rising costs.

The Friends of the Library have again been active with 65 children in the Summer Reading Program. With the Friends' help, Mr. Wray has set the paperbacks up in a catalog system. A book sale was held in late summer and proved very successful.

Many gifts have been received throughout the year and are always appreciated. The copy machine is still available and can be used for a very nominal fee.

Respectfully submitted  
 Judy Temple, Chairperson  
 Marilyn Pingree, Vice-Chairperson  
 Charlotte Davenport, Treasurer

 Georgette Hecker, Maintenance  
 Lorraine Snay, Secretary

## LIBRARIAN'S REPORT

The librarian began the past year by contributing a list of our periodicals on file to the Amherst library in a cooperative effort to compile a union list of periodicals available to the area libraries.

During the year several hundred paperback non-fiction books have been cataloged and are now available to the public on an organized basis. Thanks to all the people who have donated these books the past couple of years.

In October we added five hours to the schedule, making the library accessible to the town forty-five hours per week. We expect to add another five hours sometime this year and the librarian welcomes your suggestions as to the best time periods to fill with the additional hours.

The townspeople are also reminded that besides the regular collections of books the library provides inter-library loan service, free films for special

programs and statewide borrower's cards for patrons in good standing.

Several sets of books were added to the reference collection this year including the multivolume Oxford English Dictionary, the latest edition of Compton's Encyclopedia, and the four volume set on the American Writers.

The librarian wishes to commend all who have remembered the library with gifts of books and services during the year, especially the Friends of the Library, the Goffstown Garden Club, the Shirley Club and the Unity Club.

# CONSERVATION COMMISSION

Sharon Lazott - Grade 9

The Goffstown Conservation Commission is happy to submit its annual report to the citizens of the town. Practices initiated in years past have been continued; the picnic tables and scenic area on the mountain were maintained again this year.

The Commission has also been reviewing the Dredge and Fill Applications as required by State regulations and has been trying to acquire by purchase or by easement any wetland as it becomes available. Also, the Commission is and has been working to acquire tracts of land in various locations throughout the town which have unique qualities or are supportive of distinctive plants or animals. Any help or recommendations along these lines would be invaluable.

The Commission also sponsored two High School Students to the Conservation Camp held at Bear Brook State Park this past June. The rainy weather dampened their enthusiasm but the increased knowledge of conservation practices proved very informative to both the students and the Commission. It is hoped that this practice of granting the conserva-

tion camp scholarship will be continued in 1975 and that interested students contact a member of the Commission for particulars.

The Commission would also like to thank a newly retired member, Mr. Carl Hecker, for his years of dedicated service to the Commission and to the town. Mr. Hecker and his knowledge of the town will be greatly missed.

In conclusion, the Conservation Commission is working toward the future by trying to maintain the quality of the town as it is to-day.

Respectfully Submitted,

Karen McRae, Chm.

# VISITING NURSE ASSOCIATION

## TOWN OF GOFFSTOWN

Visiting Nurse Association of Manchester, N.H.  
194 Concord Street, Manchester, N.H.  
Telephone 622-3781 or 622-3789

Visiting Nurse Association services are available to Goffstown residents in their homes at no additional cost to the town. This agency is a private, voluntary non profit Association and is the Home Health Agency certified to care for medicare patients as well as persons of all ages regardless of race, creed or ability to pay, who need care or instruction.

Services on a part-time basis (with physician's orders) include: Skilled nursing care/and/or treatment by registered nurses and licensed practical nurses. Physical therapy — by registered therap-

ists Occupational therapy — by a registered therapist Speech therapy — by a registered therapist Homemaking Home Health Aide Service.

There is a fee for service and payment will be discussed on the first visit. Adjustments can be made if full fee cannot be paid. Some patients are eligible to have service paid for through Medicare, Medicaid and other health insurance.

Service at no charge for residents of Goffstown include: Maternal and child health guidance and instruction. Family health guidance with emphasis on prevention of disease and promotion of healthful living. Regional immunization clinics yearly. Blood pressure readings monthly at Stark Hall. Drop in at the Visiting Nurse Association office daily 1:30 p.m. to 3 p.m.

743 visits were made by Mrs Gage and Mrs.

Christoph, R.N. to Goffstown residents in 1974. Mrs. Kelton, Mrs. Ducharme, Mrs. Corbett or Mrs. Mason Physical Therapists, and Miss Lavery Occupational Therapist made 48 visits to Goffstown residents.

The physician, patients, family or a friend may call the Visiting Nurse Association for services and/or further information at 622-3781 Monday through Friday 7:30 a.m. to 4:00 p.m. Necessary services are provided on weekends and holidays.

Mrs. John Stanhope, Mrs. Richard M. Wood and Mrs. Bernard Cunningham represent Goffstown on the Board of Directors of the Association.

# BICENTENNIAL COMMISSION

When the National American Revolution Bicentennial Administration decided against having a centralized, fair type, celebration as had been the case for the Centennial and Sesquicentennial in Philadelphia, it established the framework and guidance to enable any community in the U.S.A. to participate in the celebration if it so chose.

Three themes were selected as typifying the nature of the celebration:

**HERITAGE '76** — relates to the way in which people and events of the past have influenced our current condition as individuals and as a community.

**FESTIVALS-USA** — has to do with the traditional, one of a kind celebration such as parades, fairs, pageants, athletic events, and the like.

**HORIZONS '76** — looks beyond the present and the past and concerns itself with the establishment of things and ideas of a lasting nature commemorative of the Bicentennial of the Revolution.

In mid-year the Board of Selectmen established the Goffstown American Revolution Bicentennial Committee. This shortly evolved into one committee for each theme, the chairmen of which together with the co-chairmen of a Ways and Means Committee, the Publicity and Public Relations Co-

ordinator, and Secretary constitute a Steering Committee, under the co-chairmanship originally appointed.

The committees are now engaged in developing plans and programs which will exemplify the three themes and allow full community enjoyment, either as active participants or spectators.

Those Goffstown residents wishing to participate actively or who have ideas for the celebration are encouraged to make contact with any member of the Steering Committee, with the assurance that any contribution will be sincerely appreciated.

## **ANNUAL SCHOOL DISTRICT MEETING MINUTES**

**March 4, 1974**

Regular meeting of the Goffstown School District held at the Goffstown High School auditorium. Meeting called to order by Moderator Lloyd Sorenson at 8:00 P.M. Meeting opened with a pledge of allegiance to the flag by Senior Student Ann Hahn. A prayer was offered by Rev. William Hamel.

Chairman of the Board Serieka congratulated and thanked Coach Leon Konieczny and the State Class "I" Championship Basketball team . . . and a rising vote of thanks was given by the meeting.

Certificate as to the posting of the Warrant was read. Moved and seconded that the reading of the Warrant be omitted and that each article be acted upon as they appear. Motion carried.

### **Article # 1.**

Moved by Jay Hunter and seconded the article be adopted. Carried by voice vote.

### **Article # 2.**

Moved by Gordon Sterling and seconded that article be adopted. Carried.

### **Article # 3.**

Moved by Patricia Guptil and seconded that article be adopted. Defeated by a voice vote. Motion by Ken Hambleton and seconded to dismiss the article. Carried.

### **Article # 4.**

Moved by Robert Merrill and seconded to adopt the article. Carried.

### **Article # 5.**

Daniel Serieka moved and seconded to adopt the article. After several amendments and discussion the article was defeated by a voice vote.

### **Article # 6.**

Moved by Dallas Mahoney and seconded by Patricia Guptil that the article be adopted. Article carried by voice vote after discussion.

### **Article # 7.**

Motion by Bob Pokigo and seconded to approve the article. After discussion article was amended to increase the amount to be appropriated to read "\$8,000." by Robert Wheeler and was seconded. After discussion article carried.

#### Article # 8.

Motion to dismiss the article by Mr. Yergeau and seconded. Carried.

#### Article # 9.

Chairman Serieka moved and it was seconded to raise the sum of \$2,301,427.00 for the support of the Goffstown School District. Motion carried by voice vote.

Moved by Mr. Serieka and seconded that article #3 be reconsidered to have District Records audited by the Auditors of the State of New Hampshire. Meeting voted unanimously to reconsider the article. Article then passed by voice vote to include the auditing by the state auditors.

Moved by Mr. Merrill and seconded that the meeting be adjourned. Carried.

Meeting adjourned at 9:55 P.M. on March 4, 1974.

Lawrence A. Emerton, Sr., Clerk  
Goffstown School District.

### GOFFSTOWN ANNUAL REPORT

#### REPORT OF THE SUPERINTENDENT OF SCHOOLS To The School Board and Citizens of Goffstown

I herewith submit my 1974 Report concerning the public schools of Goffstown.

Three years ago, the United States Commissioner of Education made a courageous appeal for a new sense of purpose in American education. He proposed that we reorder our whole education effort around the new concept which he chose to call "career education."

His call triggered a quiet revolution in American education. The Commissioner said:

"Education's most serious failing is its self-induced voluntary fragmentation. The strong tendency of education's several parts to separate from one another, to divide the enterprise against itself.... "I propose that the universal goal of American education, starting now, be this: that every young person completing our school program at grade twelve be ready to enter higher education or to enter useful or rewarding employment...."

This appeal has been widely misconstrued by educational policy makers, and thus its far-reaching nature has been misunderstood. "Career education" is NOT simply a new name for what we now call "vocational education." The Commissioner was not saying that our concept of vocational education should be somewhat enlarged and the enlarged concept called "career education." Nor was he saying that new programs in something called "Career education" should be developed at the cost of vocational education.

He was saying something much different and much more fundamental. He was saying that the old distinctions which have crippled our educational effort should be forever laid aside and a new unity of purpose be expressed by a new universal term: "career education."

Right now we have a bewildering variety of designations within the educational system, but the principal ones are these: College preparatory education, Vocational education and General education.

These terms have come to suggest choices which need not be made, distinctions which have no meaning, divisions of what is really indivisible, and conflicts where none need exist.

Our thought and our practice about education should at last be integrated. The result of this integration should be called "career education." It would come about when American education emphasizes preparation for work as a prominent and permanent objective of the public schools to include unpaid work as well as the world of paid employment.

We believe the public wants two things: one very consciously, the other more subconsciously. The public's conscious demand is a demand that education be made relevant to the world of work. The public's subconscious demand is another matter altogether. It is a demand that education be made more relevant to the achievement of the good life. We have educated large numbers of people in the liberal arts, but the practical arts and the fine arts have been reserved for a few.

The principal barrier to the conversion of education to a career orientation is simply: it costs a little more than general education. A career program requires more and better counseling, and more "real-world" equipment. Career education requires staff to involve community resources. It requires new instructional materials and the planning and operating of "work experience" stations in industry and

the community and in schools. However, community, business and education people, coordinated and working together can minimize increased cost and, yet, fulfill the goals of career education: relevant experiences in the world of work and a chance to participate in conditions of the good life.

The first step to implementing Career Education to its rightful prominence in school and community is the establishment of a local Career Education Council which we are in the process of organizing.

School years 1973-74 and 1974-75 continue as years of growth, of change, and of effective education. May I list a few endeavors which have been bases for progress.

- The elementary school program adoption process was put into a 5-year cycle as the year-long work of a Science Adoption Committee with members from each elementary school, including administrators, culminated in the selection of the Harcourt, Brace and Jovanovich program. The text, experiment and supplementary materials, including audiovisual, are used this school year. The experiment and certain A-V components were purchased with 50% Federal support under the

NDEA, Title III program.

- Bartlett School became a member of the NH SHARE project, joining 15 other schools in the ESEA Title III Federally-supported program introducing the proven Individually Guided Education (IGE) system to New Hampshire classrooms. Current implementation in Grade 1 will expand upward as success warrants.
- The Staff Development program reported in the 1973 Report will become a Supervisory Union 19 cooperative endeavor with each district maintaining a maximum autonomy. The MASTER PLAN for certification/in-service work has been a Union-wide plan, worked on by district chairpersons following continuous consultation with each district's committee members. Local unique practices and provisions which do not counter Union procedures are supplemented. Staff Development in accordance with the PLAN and its supplements becomes effective July 1, 1975.
- In addition to the NDEA Title III support of the equipment component of the Science series adoption, the District participated in the ESEA Title II program with the acquisition of library

and media materials for all schools, in the Adult Basic Education (ABE) program and has planned for a substantial program under ESEA Title I. Both Elementary and Secondary Education Act (ESEA) programs are 100% Federally supported.

- The Goffstown Comprehension School Study Committee, an outgrowth of last year's Goffstown Year-Round School Study Committee, was established by the School Board to study the present status of the educational program and the school buildings, to project both components into the future and to recommend alternatives for future School Board action. Members of the Committee are:

David Crowell, Chairman

Emile A. Bourque	Robert Francoeur
Irving R. Byron	Patricia Guptill
Shirley Duhaime	Dallas Mahoney
Wayne L. Evans	Gossett McRae
William Orcutt	Milton Meyers
Robert Pokigo	Richard Wood

The Center for Educational Services (CEFS) of Durham, NH, was contracted to assist the Committee. The consultant's voluminous Goffstown Long-Range Planning Project report was submitted to the Board through the Committee in January, 1975. The official Committee report is printed elsewhere. The Committee members are to be commended for the many hours applied to the task, for the quality of their deliveries and for the forthrightness of their report.

- The Adult Basic Education (ABE) program is in its second successful year with Emil Bourque as Director, succeeding Leon Cote. The program, 100% Federally supported, has added English as a Second Language (ESL) to its curriculum. The twenty (20) enrollees... there were 12 last year... are preparing to obtain high school equivalency through the General Educational Development (GED) test. Adult Education, self-supporting through course charges, had 54 students enrolled in Cake Decorating, Beginning Typing, General Woodworking and Sewing.
- Concerted attention has been given to the District's handicapped children. Three (3) major actions have resulted in more effective service to these pupils: a. Two (2) aides were employed under the Federal PEP Employment Program so that the Special Education class teachers at Maple Avenue School and Goffstown Junior High School each have needed assistance, b.

Specialists in the system have formed a Handicapped/Learning Disabilities Council which meets regularly to assess our programs and its personnel and to review requests for special programming for children with potential special needs, and c. A mini bus has been contracted from the Goffstown Trucking Center to transport pupils tutored to special schools in Manchester and pupils enrolled in Goffstown's Trainable Class. Continued progress in the education of children with special needs should result from further current planning.

- Recognizing the need for a policy manual, the Goffstown School Board established a subcommittee to update and develop Board policy. The Goffstown School Board Policies Manual, adopted by the Board at its October 7, 1974 meeting, provides a simple, though extensive, numerically indexed set of Board policies and administrative regulations.
- Congratulations Coach Konieczny and the team! for taking the State Basketball Championship the winter of 1973-74.
- Every one of the schools strives toward quality learning for its students. Each of these principals' reports contains elements that support quality learning goals.

**Bartlett School** — Leon Cote, Principal  
Bartlett Elementary School presently has an enrollment of 325 pupils in twelve classrooms, having a pupil-teacher ratio of 27 to 1.

Breaking away from the customary, traditional self-contained classroom, first grade teachers, with the reading teacher, have formed a teaching team to handle all first graders, helped by the NH Individually Guided Education (IGE) League of which Bartlett School is a member. As part of the IGE Program, the team plans for all pupils whether individually taught or instructed in small or large groups. Children are assigned different seating arrangements depending on their work. Working stations are provided so that pupils may at some time work independently. With this IGE program, we are implementing a somewhat new concept in education and the team is working hard to make it functional within our traditional structure.

The 2nd grades have changed their approach remarkably, with much individualization. Rooms have been rearranged from the traditional rows to groups — three, four or five clusters. An individual carrell in each room allows a pupil to work alone for a period of time and

not be disturbed. Prepared working stations motivate pupils to learn phonics, reading, science, arithmetic or just watch fish or animals in the science corner. The appearance of the room is conducive to good learning and teaching.

Throughout the school, rooms are brightly arranged and excellent teaching takes place. Mrs. Boisclair, School Lunch Manager for eight years, is succeeded by Mrs. Hamilton.

The Bartlett School Mothers' Club continues a strong supporter of the school, including contributing financially. Members have put in many hours in the library and in preparing materials for the classroom teachers. Their assistance is greatly appreciated.

Mrs. Pleatsikas is the new school nurse. Organizations such as Scouts, Mothers Club, Lions, C.W.V., Republicans, Democrats, Police Department, etc., use our gym facilities. The school provides facilities for basketball, volleyball, square dancing, round dancing, school

board meetings, committee meetings, voting, etc. We are pleased to be able to serve the Pinardville community.

**Maple Avenue School** — Wayne Evans, Principal

A fourth grade teacher was added to the staff to help bring the pupil-teacher ratio down to 26-1 in this grade level. The additional teacher has not only helped decrease pupil-teacher ratio but has been an important factor in the transition between self-contained classrooms and departmentalization of grade four.

The first grade class size is still too large and if the total enrollment holds steady next fall, an additional first grade teacher should be considered. That grade's pupil-teacher ratio is 27-1.

Additional help has been obtained for the Special Class students through the Federal Manpower Program. A full-time aide is now employed to help with the instruction of certain children with learning disabilities.

A physical education program has been started, on a very limited basis, but with no facilities available at Maple Avenue School, students walk to the Upper Elementary School to participate. Serious consideration should be given soon to adding either a multi-purpose area or a cafetorium for the introduction and/or expansion of music, art, and physical education.

**Upper Elementary School** — William Brendle, Principal

A library was established in the Upper Elementary School last year. The library, staffed by the Goffstown Mothers' Club for the first two periods in the morning, presently has 791 books ... a start. It is also staffed by students from Grade 6 during the fifth and sixth grade study periods. The staff is represented in a Curriculum Study in English, Spelling and Handwriting. The Curriculum Committee meets Wednesdays to review texts and materials requested from various publishers.

An evaluative criteria has been formulated for English, Spelling and Handwriting with each series of texts evaluated against the criteria at each grade level, 1-6. Because students of Dunbarton and New Boston attend Goffstown Jr. High School, Grade 7-12, members of the Committee are from the three towns.

The Committee was aided by a list of items the teachers felt needed improvement, that list coming from the "Needs Assessment" done by the Staff Development Committee in Goffstown.

The ski program was continued at Pats Peak, available to all students from Grades 4 through 12. The program was offered at a cost of \$26.50 for each student, \$17.50 for six lessons and six hours of free skiing for six consecutive weeks, and \$9.00 for transportation to and from the area. The transportation is supplied by the Goffstown Trucking Center.

**Goffstown AREA High School** — Robert Moulton, Principal

The Goffstown AREA Junior/Senior High School opened in September, 1974 with 1,387 students, 904 registered in high school classes and 483 enrolled in Junior High School.

Scheduling this year was individualized to the extent that all students received teacher and guidance counseling which allowed for wiser choice of subject areas selected. New programs included an I.S.C.S. science program for

freshmen, a revised mathematics curriculum designed to better meet needs of college and non-college students, and a more complete band and instrumental program.

We are pleased to mention that notable progress has been made in our elective programs in English and in the Social Studies. Our Industrial Arts program and staff have been expanded and our Art program has met with popular acceptance by our student body. I think I should mention here that our Art, Industrial Arts and Home Economics exhibit presented last Fall was one of the finest we have been privileged to observe.

Attempts to complete staffing were continued, and at this point, Junior High teacher loads, while not being ideal, are at least realistic.

Our activity program was in full swing throughout the first semester with great student participation. Basketball was added for Junior High girls and plans have been made to include an activity period within the school day for students at this grade level.

Problems include:

1. Insufficient offerings for non-college students.
2. A lack of books and audio-visual materials and equipment in the Media Center.
3. A need for additional help in the field of Special Education and Reading.
4. A limited activities program.

There is a need for pre-vocational courses, a cooperative education program, and distributive education if we are effectively going to meet the needs of students not planning to attend college. Pre-vocational courses should include food services, clerical practices, carpentry, electricity and auto mechanics. The school has supportive courses for these programs but would need additional personnel to put them into effect.

The Distributive Education and Cooperative Education programs would be of immeasurable help in making the transition from the status of student to that of a member of the labor force.

In the area of Special Needs, a number of students need extra help in reading and in other subjects but are not getting that help because of a lack of available instruction.

While the Library/Media Center facility is one of the finest in New Hampshire, the number of book volumes as well as the amount of audio-

visual supplies and equipment leave something to be desired. It is our goal to meet American Library Standards at the earliest possible time. Numbers of students, as well as interests, has made us aware that something must be done to increase opportunities of students in after-school activities. Budget limitations in the past have allowed for little expansion of our program despite numerous requests by students. Considerable exploration should be conducted relative to the possibility of finding ways to provide leisure time programs as well as competitive and lifetime sports for our youngsters.

**NEW STAFF**

The Goffstown School System needs certain additional staff for desirable additional programs to assure educational growth as well as meeting school population growth.

Minimum Standards for New Hampshire Elementary School Approval (K-8) becomes effective July 1, 1975. A broad and well-balanced elementary school curriculum provides experience in Art, Health, Music and Physical Education. Goffstown should be considering personnel to work in the three elementary schools in these areas. The same standard calls for Library and Guidance Sciences. A librarian and a guidance counselor for all the Grade 1-6 schools would currently meet this standard.

At the secondary school level, Grade 7-12, there is need for an additional person each in Business Education, Home Economics, Guidance, Special Education and instructors in the Pre-Vocational Areas: Food Services, Clerical Practice, Carpentry, Electricity and Auto Mechanics.

I wish to acknowledge my sincere appreciation for the aid and cooperation provided me by the principal, teachers, school board members and citizens of Goffstown.

Respectfully submitted,  
ANTONIO G. PARADIS  
Superintendent of Schools  
NH Supervisory Union #19  
Bow, Dunbarton, Goffstown,  
New Boston, Weare

## REPORT OF THE GOFFSTOWN COMPREHENSIVE SCHOOL STUDY COMMITTEE

At the 1974 annual school meeting, the School District voted to authorize the School Board to appoint a Comprehensive School Study Committee to study all aspects of education in Goffstown and to submit its findings and recommendations at the 1975 School District meeting. The town also appropriated the sum of \$5,000.00 to pay for such items as surveys and publishing and distributing the committee's reports.

After the 1974 School District meeting, the School Board appointed to the committee thirteen citizens with diverse interests and occupations.

The committee first met on May 13, 1974 and has held eighteen regular meetings since that time. In addition, there have been many meetings of various subcommittees. In July, the committee recommended to the School Board that it retain the Center for Education Field Studies (hereinafter "the consultant") to study Goffstown's school facilities and programs and to submit a written report including recommendations covering the district's needs for the next ten years. The committee has worked closely with the consultants since last July, and the committee as a whole or its subcommittees has also met with Superintendent Antonio Paradis, School Board Chairman Daniel Serieka, High School Principal Robert Moulton, Upper Elementary School Principal William Brendle, Bartlett Elementary School Principal Leon Cote and with Maple Avenue Principal Wayne Evans, who is also a member of the committee.

Also in July, six subcommittees were established. A demography subcommittee studied population data, housing trends, etc., in order to attempt to predict the number of pupils that will be attending Goffstown schools in the future.

An expectations subcommittee, by way of a questionnaire and conversations with townspeople, gathered information concerning what the residents of the district expect of our educational system.

A facilities subcommittee inspected and evaluated existing school facilities.

A finance subcommittee analyzed past, present and future school district costs, the town's ability to pay and what effect school improvements will have on the tax rate.

Educational programs subcommittees (primary and secondary) studied and evaluated existing curriculum and teaching methods and compared the existing curriculum and methods with some other

available alternatives.

The Subcommittees reported as follows:

### 1. DEMOGRAPHY.

The demography subcommittee found that there is no way to predict with complete accuracy what the school population is going to be in future years, and it is extremely important that projections for future school population be reviewed every year.

The demography subcommittee can say at this time that the town can probably expect a gradual decline in elementary school pupils through 1983. However, pupils attending grades seven through twelve will increase significantly in the near future. 1,380 pupils now attend grades seven-twelve. In four or five years, if the predictions are accurate, Goffstown can expect that over 1,660 students will be attending grades seven through twelve assuming that the school growth rate will be the same in the next ten years as it has been over the last ten years. The demography subcommittee cannot emphasize strongly enough that Goffstown should be very careful about its planning and zoning if the town is to keep control of the school population problem. The demography committee would also like to point out that under the Goffstown Area Plan, Goffstown must continue to accept junior high and high school students from Dunbarton and New Boston unless all three districts agree to the contrary.

### 2. EXPECTATIONS.

In October the expectations subcommittee conducted a survey of Goffstown residents to determine their educational attitudes and expectations. The following is a brief summary of the answers to the questionnaire.

Parents' lack of interest and discipline emerged as the chief problems in the schools in the view of respondents.

Administration, teachers and school facilities were ranked overall as being the best aspects of the schools.

The basic skills (the three "R's"), problem solving and respect for law and authority were chosen as the most important things respondents wanted their children to learn in school.

In the area of curriculum, a large majority were in favor of an expanded vocational training program in the schools. A large majority was also in favor of an expanded physical education program in the elementary grades and there was substantial support for an organized art program at the same grade level.

Year-round school received the biggest plurality as a solution to overcrowding, closely followed by double sessions.

In other areas, 58% were in favor of public kindergarten, 67% chose a goal of further education for their children, 58% believed that attendance at senior high school should be required, and community involvement in school affairs was about average.

### 3. FACILITIES.

Bartlett Elementary School was built in 1920 to house all Pinardville students in grades one through eight. Increasing enrollments over the years necessitated the construction of an addition in 1962 and a reduction of grades to grades one through four at the present time.

The 1962 addition provided six new classrooms, an activity room with a kitchen, and a principal's office. At the same time the original building was renovated and remodeled, leaving four classrooms on the first floor; the basement area was done over to provide a large group instruction area for the first grade and a library alcove for the entire school. The small school site has been improved by grading and filling in an unused area behind the building, increasing the paved playground considerably.

The operating capacity of the school with its thirteen faculty members is 300 pupils. The present enrollment is 328. One of the classrooms in the original building has been converted into a teacher workroom.

The building is in excellent condition. The present site of 1¼ acres limits future expansion.

Maple Avenue Elementary School was constructed in 1956 and a 6-room addition was built in 1960. At present, there are four classrooms for each grade, a special education room, a remedial reading area and a small library room. Most of the classrooms have an area of almost 900 square feet as recommended. The present enrollment is 395 with sixteen classroom teachers and two special faculty members in the areas mentioned. The small library room serves as a beginning for a media center.

The site contains nearly 6 acres and offers good possibilities for expansion. Part of the play area is paved for year-round use.

There is no activity or multi-purpose room for the school. No special or separate areas are provided for art, music, or physical education. Maple Avenue students have limited use of the gym at the nearby Upper Elementary School.

The building is in good condition and well maintained. The split-level design of the school minimizes the need for ramps or an elevator for the handicapped. The building is serviced by a fire alarm system tied into the town system.

The principal's office space and teacher's room

are located next to each other, near the main entrance to the building.

**Upper Elementary School** came into existence when the decision was made to move grades five and six to the old high and junior high located on Parker Street. The original building, constructed in 1924, and added onto in 1948, contains a gymnasium with showers and lockers, and a small music room adjacent to the entrance lobby along with fifteen regular classrooms.

The site has less than two acres but good use has been made of the limited area by paving the surface of the playground. The building is in good condition. A new heating system was installed this school year. The building is not equipped with ramps or an elevator for the handicapped.

Presently the 16 member teaching staff services an enrollment of 390 students. The media center is in its infancy and consists of a small room centrally located on the first floor designated as the library. The faculty has made good use of the science suits with a preparation room in between. The regular classrooms range in size from 560 square feet to nearly 900 square feet in the area formerly used for shop and home economics.

**Goffstown Area Junior-Senior High School.** The addition of Junior High facilities to the Goffstown High School opened in 1973 and is a modern educational facility including attractive and well-lighted standard classrooms, modern science laboratories, business education rooms, a complete home economics department, band and music rooms, a media center which will seat some 190 students and can accommodate the housing of 15,000 volumes. Study carrels and seminar rooms are included as a part of this instructional unit as are audio-visual capabilities. New language laboratories have all of the capabilities of a traditional facility, but not the limitations. Since acoustical treatment and carpeting have been installed, there is no need for carrels, thus the rooms are available for regular classroom instruction as well. The large group instruction area will serve many purposes. Designed for team teaching, it is used for courses in speech and communications and for testing, as well as for other guidance services, dramatics, and school and community productions. This area has a seating capacity of 408.

The office complex consists of administrative, guidance, and nurses offices, teachers' room and work area. The fully equipped kitchen and cafeteria cater to the dining and study hall dual purpose for which the area was constructed. The gymnasium has a full divider which forms separate boys and girls gym areas is complemented with complete shower and

locker rooms. The shops are equipped to provide for the teaching of electricity and electronics, sheet metal work, woodwork, power mechanics, mechanical drawing and small engine repair. A practice gym which has many uses is also available.

There are 66 available teacher stations in the complex are not counting the special areas such as guidance, resource and auditorium. At present, there are 1,380 students and 67 teachers, again not including administrative and special personnel such as nurses and guidance.

The thirty-one acre site provides a central location in an attractive natural setting with reasonably safe pupil access. An athletic field for soccer will be ready in 1975.

#### 4. FINANCE.

Goffstown's bonding capacity is calculated as of the date of the vote of a town meeting for a new bond issue. At the present time, Goffstown has an assessed valuation as equalized of \$63,272,711.00, based on 1972 figures. The borrowing capacity is calculated at 7.5% of that figure, or \$4,745,453.00. The outstanding debt on December 12, 1974 was

\$2,370,000.00. Therefore, Goffstown has a net borrowing capacity of \$2,375,453.00 at this time. The unused borrowing capacity will change when adjusted valuation for the town is recomputed during the spring of 1975. The cost to the town of the plans proposed by the consultants and by the committee, as calculated by the finance committee, will be indicated further on in this report.

#### 5. EDUCATIONAL PROGRAMS.

Language arts (reading, language and writing), math, science, and social studies are taught at the Maple Avenue and Bartlett Schools, which house grades one through four. There is no full-time art or music teacher at either school; each regular classroom teacher teaches art and music to the students to the best of his or her ability and a music teacher comes to the schools on a limited basis. There is no organized physical education program at either the Bartlett or Maple Avenue nor is there a teacher. Maple Avenue has a full-time remedial reading teacher, who could use help, and the Bartlett School also has a full-time remedial reading teacher. A special education class is available at Maple Avenue and has about twelve students.

At the Upper Elementary School, English, science, reading, arithmetic and social studies are offered. There is no organized art program for the upper elementary children and music is an elective. Music is taught by a music teacher who attends the Upper Elementary School one morning per week. Physical education is supervised by the regular teachers and can be worked in only during study periods, of which there are few in number.

There is no public kindergarten in Goffstown. There is no counselling program in grades one through six and the resource centers (libraries and other learning aids) are limited. There is no speech therapist and there is no special education teacher or classroom in the Upper Elementary School. Home economics and industrial arts are not offered in the Upper Elementary School.

The educational program offered at the Goffstown Junior-Senior High School provides the students with a traditional concept in education. The program meets with and exceeds the requirements of a comprehensive secondary school.

Consideration should be given in a few areas to expand existing programs such as pre-vocational education, counselling, special education, media center and co-curricular activities.

#### CONSULTANTS' RECOMMENDATIONS

The consultants have submitted a 95-page report (which anyone can look at at the Town Hall) in which

they offer the following recommendations:

1. It is the opinion of the consultants that at least by the year 1980 the junior-senior high school will be overcrowded. Therefore, in order to meet Goffstown's junior-senior high school needs for the next decade the consultants say that one of three plans should be implemented prior to 1980:

**PLAN A:** This plan calls for building an additional 17,300 square feet to the junior-senior high school. This plan should be implemented if Goffstown wishes only to accommodate the increased number of students and maintain the existing program. The finance subcommittee has determined that this plan would cost the taxpayer \$519,000.00.

**PLAN B:** This plan contemplates building an additional 28,000 square feet to the junior-senior high school. The consultants feel that this plan should be implemented to accommodate the projected additional number of students and to expand the existing junior-senior high school program in a limited way. The finance subcommittee has computed that this plan would cost the taxpayers \$840,000.00.

**PLAN C:** This plan calls for building an additional 41,000 square feet to the junior-senior high school. This plan should be put into effect if the district wants to accommodate the projected additional students and to provide a comprehensive and up-to-date educational program for Goffstown's junior-senior high school students. The finance subcommittee has determined that this plan would cost the taxpayers \$1,230,000.00.

The consultants have offered the following conclusions about the above three plans.

If Plan A is adopted, the present educational program can be maintained. This is really a very sound program, but the following negative consequences should be noted:

1. Space for special education would be somewhat limited.
2. The art program would be somewhat restricted — a teachers' room or some shared use of academic areas would have to be designated for art, or an art program would not be offered to 7th and 8th graders.
3. The space needed for an expanded athletic program would not be provided.
4. The percentage of students participating in social studies and physical education would continue at approximately 67% and 76% of total enrollment respectively, whereas greater participation would be desirable.

5. The shop courses can be scheduled for only 5 periods per week, whereas it has been planned to offer some pre-vocational courses which would need to meet for 10 periods per week.

In summary, Plan A is, given the demands on tax dollars for school operating costs and other municipal services, a responsible plan for action.

Plan B, besides maintaining the existing educational program as in Plan A, does provide for some program expansion. A new teacher station for special education is proposed. An additional physical education station plus new showers and lockers, would make it possible to expand the athletic program as well as to offer physical education to a greater number of students. The additional shop would allow scheduling some shop courses as pre-vocational for 10 periods per week per class. There is also more space for home economics and a minimum of new space would become available for art classes.

In summary, Plan B has the advantages of permitting some desirable program expansion as well as correcting some of the present restrictions on program.

Plan C is, of course, the most desirable plan educationally if one is to disregard cost or other priorities for spending limited resources.

In general, Plan C differs from Plan B in a quantitative way: more academic classroom space, more space for science, more space for reading and special education, a specialized teacher station for art, more space for home economics and shop programs, sufficient room for significant expansion of athletics and physical education, and the very desirable auxiliary areas which were not provided in either Plan A or Plan B.

In summary, Plan C should be viewed as the "target" situation with any lesser plan to be considered as moving towards the eventual goal of a total response to increasing numbers and improved educational opportunities. What is to be done in the near future should relate to what may be possible in the long range.

2. The consultants feel that the elementary and upper elementary programs and facilities could be improved upon in the following ways (not in any order of priority):

A kindergarten might be added when space becomes available due to declining enrollments in grades one through four. The Maple Avenue School needs an activity room and an art room. The Bartlett School site needs to be expanded and a resource

center should be considered for the Bartlett School. The Upper Elementary School needs a resource area and the noise problem in the classrooms under the gymnasium should be eliminated, if possible. A regular program of instruction in physical education and health should be offered in grades one through six. A special education class should be provided in each elementary school and in the Upper Elementary School. Art and music need strengthening in grades one through six and home economics and industrial arts might be offered in the Upper Elementary School. Counselling services should be offered in grades one through six. Resource centers should be provided in the two elementary schools and in the Upper Elementary School.

3. The consultants feel that the junior high — high school programs and facilities could be improved upon in the following ways (not in any order of priority):

Pre-vocational education should be strengthened in the high school and continued development of the home economics program in the high school should receive high priority. The special education program is probably not adequate to meet the needs of all high school students requiring this type of instructional program. A more diverse program in English should be offered in grades seven through ten. A course in computer mathematics might be offered in high school. A more varied curriculum in art and music would appear desirable in the junior-senior high school. Priority should be given to adding at least one part-time guidance counsellor in the high school. The resources center in the high school should be expanded. Strengthening co-curricular activities, such as athletics, club activities, etc., in the high school should be given consideration.

4. The consultants have suggested the following as possible alternatives to building an addition to the high school:

- A. Extend the school day to eight or nine periods from the present seven.
- B. Hold double sessions (morning and afternoon).
- C. Extend the school week to six days.
- D. Provide year-round schools.

#### **RECOMMENDATIONS OF THE GOFFSTOWN COMPREHENSIVE SCHOOL STUDY COMMITTEE TO THE SCHOOL DISTRICT**

1. The committee recommends that prior to 1978, the school district build an addition to the junior-

senior high school amounting to approximately 14,700 square feet to be used for academic classrooms, science, industrial arts and pre-vocational activities and physical education. If implemented, this recommendation will provide space for the expected increase in enrollment in the junior-senior high school and will provide a limited expansion of the junior-senior high school educational program. The finance subcommittee estimates that this addition will cost \$441,000.00, based on an average current building cost of \$30.00 per square foot.

2. The committee recommends to the school district that prior to 1980, the district authorize an addition of an activity room to the Maple Avenue School measuring 50 feet by 75 feet for a total of 3,750 square feet and that the district build a library between the wings of the Upper Elementary School measuring 26 feet by 70 feet, totalling 1,820 square feet.

3. The committee further recommends that the school district implement the following, which are not in any order of priority:

(a) A kindergarten should be provided when space becomes available.

(b) Physical education and health should be provided for grades one through six.

(c) Special education classes should be provided at the Bartlett School and at the Upper Elementary School.

(d) The art and music programs in grades one through six should be improved.

(e) At least one part-time guidance counsellor should be added to the high school staff.

(f) Options on land adjacent to the Bartlett and Upper Elementary Schools should be negotiated so that site expansion can be accomplished as land becomes available.

(g) Other land acquisition possibilities in the County Farm — Pinardville area should be explored in case it becomes necessary to build a new upper elementary, middle or junior high school complex.

(h) Co-curricular activities should be expanded.

(i) Transportation should be expanded for co-curricular activities.

(j) Media centers at each elementary school and the Upper Elementary School should be expanded as space becomes available.

(k) The noise problem in the rooms underneath the gymnasium at the Upper Elementary School should be corrected.

(l) Remedial and developmental reading programs should be initiated in the Upper Elementary School.

(m) There should be an increased utilization of

the school buildings by the community.

(n) Opportunities should be increased for teachers to work during the summer in adult and special education and in summer school programs.

(o) The special education program should be improved upon where needed.

cation of topical fluoride, and was instructed in good dental hygiene and nutrition. The program, which met with enthusiastic response, was sponsored by the Bartlett School Mothers' Club, the Goffstown

Mothers' Club, and the School Health Service. Next year, Junior High students will also be included in the program.

Pre-school registration was held at Maple Avenue Elementary School on April 8, 9, and 10. Seventy-one children were registered. Bartlett School held its pre-school registration on April 15th and 16th, with fifty-four children being registered.

A Nutrition Workshop was held in May at the Maple Avenue Elementary School for teachers of Grades 3 through 6 and school nurses throughout the Supervisory Union. Miss Judith Kettenun, R.D. from the New England Dairy and Food Council, was the instructor.

Routine examination of cafeteria workers including stool specimens, throat cultures and serology was completed.

Arrangements were made for Mrs. Deborah Boulter, R.D.H. to visit our 7th and 8th grade Health Education Classes and she conducted a dental health seminar appropriate for this age group.

Educational films on cancer, venereal disease, epilepsy, good grooming and menstrual hygiene education were shown at appropriate levels.

The Crest Educational Program was given to students in the third grade and in our special education classes at Goffstown High School.

One nurse attended a Teenage Pregnancy Program sponsored by the Child Welfare Department. One nurse attended a seminar on Venereal Disease. A high school student chosen by the science department also attended.

A symposium on birth defects and genetic counseling was attended by the Future Nurses and members of the Science Department. Arrangements for this conference were made by the School Health Services.

Standard first aid classes were conducted at Goffstown High School for interested students. Twenty students received First Aid Certificates.

Goffstown High School is one of the agencies chosen by the Sacred Heart School of Nursing to offer their senior students a chance to observe the functions of the school nurse and the school health program. We feel that this is an enrichment program for both the student nurse and the school nurse.

Mrs. Natalie Smith, R.N. of Special Health Services in Concord, conducted a preschool vision and hearing screening program in March at both the Maple Avenue School and the Bartlett School. The Goffstown Lions Club, Pinardville Lions Club and the School Health Services were co-sponsors of this program.

We wish to express our thanks to Dr. Albert F. Snay, M.D., the Superintendent, principals, parents, teachers, school lunch personnel, the School Board and all community agencies for their cooperation.

Respectfully submitted,  
Phyllis Duclos, R.N.  
Doris N. Bailey, R.N.

**AUDITOR'S REPORT**

February 7, 1974

Goffstown School District  
Supervisory Union No. 19  
White School  
Goffstown, New Hampshire 03045

Gentlemen:

Due to a workload in excess of the personnel resources available to this Division during the calendar year 1973, we have been unable to perform an examination and audit of the accounts and records of your School District for the fiscal year ended June 30, 1973 before the publication of the annual 1972-73, 1974-74 School District report.

We regret the inconvenience which this may cause and wish to assure you that an audit of your accounts will be scheduled as expeditiously as possible.

Our current projections provide that our next examination of your School District's records shall simultaneously cover both the fiscal year which ended June 30, 1973 and the current fiscal year ending June 30, 1974.

Should this arrangement prove to be unsatisfactory to our Board, steps should be taken to petition the 1974 School District Meeting for rescission of the previous vote of the School District requesting

an audit by this Division, and to choose local auditors in accordance with the provisions of R.S.A. 197:14, which is quoted herewith:

"197:14 Officers To Be Chosen. The officers of every school district for which the law does not otherwise provide shall be a moderator, a clerk, a school board of three persons, a treasurer, one or more auditors and such other officers and agents as the voters may judge necessary for Managing the district affairs; provided, however, that school districts requesting an audit by the municipal accounting division of the state department of revenue administration shall not be required to choose auditors for the year covered by said audit."

It should be noted that the foregoing statute implies that such auditors shall be local residents.

We are pleased to inform you that the 1973 Legislature has authorized additional positions for our audit staff. It is therefore expected that annual audits in the future will be made on a more timely basis.

We appreciate your patience and understanding these circumstances.

Very truly yours,  
Frederick E. Laplante  
Director

DIVISION OF MUNICIPAL ACCOUNTING  
DEPARTMENT OF REVENUE ADMINISTRATION
